The problem with some "informants" is that they spew half-truths and narratives that most normal people already suspect. They appeal to people's confirmation biases and parrot things that almost ANYONE could "predict."

I'm just here to help...other people...not so much. 🧐

1/This translates to well over 200K cases in the US. Huge wave coming. It will be imossible to blame the unvaccinated when, as in UK, Delta ravages the vaccinated as well as the unvaccinated. The flaw in the vaccine is so obvious it is amazing more has not been written about it.

> **Alex Berenson** @AlexBerenson
> The speed at which the vaccines are failing is astonishing. The UK, the most vaccinated major country in the world, reported 42,000 cases today - almost 100x (yes, 100 times!) as many as the same day in 2020.

2/The mRNa vaccine starts with the DNA of an existing strand of the virus and then synthesizes mRNA to cause the cell to produce a protein of that strand. When the virus mutates, the mRNA is producing the wrong spike protein. The virus as it mutates is always a step ahead.

1

Eden Quainton @QuaintonLaw 8s

3/Compare this with the flu shot. You are never inoculated against "last year's" virus. Instead, previous year's viruses are studied for mutation clues and you are inoculated against a very well-educated guess (or prediction) as to what this year's virus will look like.

4/The booster shot is an extremely dangerous doubling down on a failed strategy. mRNA gene therapy is very dangerous if not dosed properly. Since pharma has limited data on third shot dosing, the risk is that it will overshoot in potency, with potentially disastrous consequences.

"John's Army"? You mean the "army" of convicted felon Ryan Dark White / "Dr." Jonathan McGreevey? So many of these "army" accounts are fake, it like a social media botnet.

Remember this? Steve follows Jon's "army". Enough said. Its literally one big ex MIC, 3 letter agency, and professional grift psyop cartel using Jesus and the punisher logo as mascots. It's quite repulsive. People wonder why the attacks on Christianity are getting worse. 😒

Remember when former state dept official Steve Pieczenik "confirmed" the ballots were water marked 🤣

Yea...what ever happened to that?

There is a great deal of misunderstanding of the meaning of "arrested" in this case. It isn't that they are going to be prosecuted, but they *will* be "arrested" and drug into the Statehouse to be "present". Yes, that is legal.

Pardon my cynicism, but it's a learned response watching for the last 18 months, but is anyone wondering if they faked getting "COVID" as a way to avoid going home to do their jobs?

Given their theatrics all week would anyone be surprised? #heroes 😕

Before 3 of his colleagues got infected with Covid in DC, Texas Dem @jamestalarico told Fox they didn't have to wear masks on the plane because the "science" says the vaccinated are immune. Sounds ke MIS NFORMAT ON to me.

This is the perfect example of the Democrat Party to show your children

- illegally leaves state to cheat when they don't get their way

- preaches climate change - takes private jet.

- pushes masks 24/7 - they don't wear them.

Not one of the J6 defendants have been charged with "insurrection."

Why is the Capitol breach called an insurrection if none of the people arrested are charged with it?

Why is the FBI & DOJ aggressively targeting people who went to the Capitol & ignoring Antifa/BLM terrorists?

In simple terms, if the Gov wants you to accept something they have a method for acceptance. Using numbers, if we are at a 2 and it's good, Gov wants you at a 7, Gov will force us at a 10 for a period of time & then give us relief to a 7 & we are happy.

Stop what you're doing and read this. This leak is going to be the story of the year: (LINK: theguardian.com/world/2021/jul …)

> Forensics analysis of a small number of phones whose numbers appeared on the leaked list also showed more than half had traces of the Pegasus spyware.
>
> The Guardian and its media partners will be revealing the identities of people whose number appeared on the list in the coming days. They include hundreds of business executives, religious figures, academics, NGO employees, union officials and government officials, including cabinet ministers, presidents and prime ministers.
>
> The list also contains the numbers of close family members of one country's ruler, suggesting the ruler may have instructed their intelligence agencies to explore the possibility of monitoring their own relatives.
>
> The disclosures begin on Sunday, with the revelation that the numbers of more than 180 journalists are listed in the data, including reporters, editors and executives at the Financial Times, CNN, the New York Times, France 24, the Economist, Associated Press and Reuters.
>
> The phone number of a freelance Mexican reporter, Cecilio Pineda Birto, was found in the list, apparently of interest to a Mexican client in the weeks leading up to his murder, when his killers were able to locate him at a car wash. His phone has never been found - so no forensic analysis has been possible to establish if it was infected.

Let me get this straight...

The police usher protesters into the Capitol.

The guy walks in & doesn't commit acts of violence or vandalism.

Congress wasn't cleared because of protests, but a bomb threat.

This guy gets 8 months in prison for delaying the vote "several hours."

STEVE TOTH

FOR IMMEDIATE RELEASE
July 19, 2021

REP. TOTH INTRODUCES BILL TO AUDIT 2020 ELECTION

Austin, TX – Monday morning, State Representative Steve Toth (R-The Woodlands) announced that he had filed House Bill 241 to initiate a forensic audit of the 2020 general election. The Texas Voter Confidence Act authorizes the Governor, Lieutenant Governor and Speaker of the House to select an independent third party to conduct the election audit. The forensic audit would focus on the votes cast in the 13 most populous counties in Texas, which include both Republican and Democrat strongholds.

"We need a forensic audit to uncover *all* the voter fraud," said Rep. Toth. "Prior to the special session, I met with constituents across District 15 in South Montgomery County. The Texas Voter Confidence Act is a product of those meetings and a direct request from the voters who sent me to Austin. Texans want to know more about the claims of voter fraud and deserve to have confidence in their elections. The Office of the Attorney General has prosecuted over 500 election fraud cases and is investigating 400 more. Voters want to know that their legal vote counts and matters."

Rep. Toth's legislation directs the audit to begin by November 1, 2021, and be completed by February 1, 2022.

"Representative Toth's proposed bill is timely and necessary with a view to exposing any instances of fraud during the 2020 election and reassuring Texas voters that their votes were accurately counted," said Mark J. Keough, County Judge for Montgomery County. "I fully support passage of this bill and look forward to the results of the audit."

Steve Toth is a small business owner representing South Montgomery County in the Texas House of Representatives. Representative Toth is a proven fiscal conservative serving on the powerful Appropriations Committee. He has been a contributor on CNN, Fox News, Fox Business News, Newsmax, OAN, Real America's Voice and KTRH.

A 6th Texas house democrat has now tested positive for Covid. That takes them to 12% as a group meaning they are statistically the largest super spreader example so far. All of them claim to be fully vaccinated. Obviously they lied about that. If not then that Jab didn't work..

Teach all of it!

Just make sure you mention that the Democrat Party was supporting all of it, which lead to the almost extinction of the intact black family in America.

And many black people are still bought and sold by the promise of a few dollars of free money. I know this because I hear it every day. They are system depended and just fine with it.

At some point they need to have higher standards for themselves as harsh as that sounds.

She already debunked that, she spent over $5,000 on the trip... the shirts were a joke, and She's a multimillionaire...

The way a few "judgmental" conservatives are acting over this is ridiculous... conservatives can't pick and choose who is in their party and win in 2022.

Right now, to not read the comments on tweets... Absolutely mind numbing and infuriating to see how ignorant so many are on both sides of the political aisle...

These are the words of @BillyGraham on communism. They are as true today as they were when he spoke them.

> *Has it ever occurred to you that the Devil is a religious leader and millions are worshipping at his shrine today? ... The name of this present-day religion is Communism... The Devil is their god, Marx their prophet, Lenin their saint and Malenkov their high priest. Denying their faith in all ideologies, except their religion of revolution, these diabolically-inspired men seek in devious and various ways to convert a peaceful world to their doctrine of death and destruction.*

That's what I thought. Funny because he claims his name was NEVER LEGALLY changed from Jon to Ryan yet in 2009 he had a drivers license in name RDW so that would have to be deep cover if not legally changed.

If so... he was still using deep cover ID in 2019

Either way, he lied

Nobody cares...

This is petty and pathetic... You can't pick and choose who's a conservative in our movement and win elections in 2022..

Just imagine if some of these conservative folks fought as hard for America as they do kicking a conservative porn star out of an event..

Jesus hung out with Leppers, Prostitutes, and Tax Collectors... But we've got all of these "goody two shoes" conservatives in our movement who now want to pick and choose who gets to be a conservative voter in a party that's already dying..

If you're being harassed at work about 'covid vax proof' I suggest you do this⬇️ BRILLIANT!

I made it clear that through my lawyer I would begin to demand the status of all other employee's health condition in regards to other forms of communicable diseases We would be demanding information on employee's with aids, hepatitis, flu, STDs, measles, mumps, and so on. My lawyer already had the papers drawn up so I could serve him the first day he tried it and part of the suit would be to force the company to make immediate policies to section off employees who had any illness they could spread, including the common cold. If they were going to take responsibility in stopping the spread of covid-19 in the building they were now liable for the spread of anything else.

Within 24 hours we were all informed that they would no longer demand to see our papers

Did you hear the statement made by the CEO? He has multiple videos out. I don't understand how conservatives are sometimes against cancel culture but then try to cancel a small business that employs over 50% of American veterans. Who do you think runs Twitter? Yet, we use it.

Yes, I listened to his video after having to go to instagram and find it. Interesting he now says the NYT skewed the message but he and his team shared the article everywhere until they were called out by those of us who helped launch their company.

Did you hear the statement made by the CEO? He has multiple videos out. I don't understand how conservatives are sometimes against cancel culture but then try to cancel a small business that employs over 50% of American veterans. Who do you think runs Twitter? Yet, we use it.

Big difference between cons cancel and dems cancel, is we don't go and try to burn down their store or have their sponsors removed etc etc we just stop buying/watching their product

I do t care about canceling them just want folks I encouraged to buy their stuff at their founding to be aware and know there are options like @Beard_Vet & @smcroasters owned by veterans. we're all opposed to racism and anti-semitism too but not going to tag our customers as such

We should vaccinate against floods. Oh wait, it won't stop floods from happening, maybe we should invest in better infrastructure to be prepared to deal with these floods that don't affect 99.5 of the population instead of vaccinating them all. just sayin

Did you hear the statement made by the CEO? He has multiple videos out. I don't understand how conservatives are sometimes against cancel culture but then try to cancel a small business that employs over 50% of American veterans. Who do you think runs Twitter? Yet, we use it.

3 1

Col. Rob Maness ret. @RobManess 1m

Yes, I listened to his video after having to go to instagram and find it. Interesting he now says the NYT skewed the message but he and his team shared the article everywhere until they were called out by those of us who helped launch their company.

BTW, instead of blocking folks like me who called them out why not just share the video on twitter and tag us so we can see it? Yes, I saw his video and not buying the lame excuses.

Women shouldn't be part of the draft. They shouldn't be part of any combat unit. They shouldn't be on Naval vessels.

Furthermore I can call Josh Barnett Jovan Pulitzer or David Jose anytime that I would like to, they are all friends of mine. I'm very well versed on the Arizona audit I kicked them off and was one of the keynote speakers on March 10th in Phoenix. @BarnettforAZ @JovanHPulitzer

I'd bet a lot of $$ that he plead guilty because he knew he'd never get out if he didn't. OR, had some pressing things with family that need him.
Was he one of the ones in solitary? Who knows. No one came for them. All those patriots...all this time and no one came for them

Think about it: it's guided by blind faith (trust the science), it has an infallible omnipresent god (Fauci); Masks, face shields, and other personal protective equipment are the yarmulkes and rosary beads, and if you question it, people get personally offended.

IMHO it's not COVID, and I'm ashamed to be a part of this, it's obesity. If we railed against obesity as we do mask and social distancing, we'd be a much healthier nation. What's worse is children. We need to do better and not govt can do this. WE need to set the example.

What's the point in winning back a Congressional majority if we're going to have McCarthy and McConnell in positions of leadership? That's no better than having Pelosi and Schumer. You don't fight back against an Administration like this one with Washington Good Old Boys.
